

Title of document:

List of drugs for practical skills in Pharmacology
for the II-year students of Stomatology faculty

I. Describe the drugs according to the following principles: group, mechanism of action and pharmacological effects, indications, contraindications and side effects:

- | | | |
|--------------------------------|----------------------------|----------------------------|
| 1. Acetaminophen | 29. Erythromycin | 57. Nitroglycerin |
| 2. Acetylsalicylic acid | 30. Ethyl alcohol | 58. Nitrofurantoin |
| 3. Acyclovir | 31. Fentanyl | 59. Norepinephrine |
| 4. Alprazolam | 32. Fluconazole | 60. Nystatin |
| 5. Amoxicillin+Clavulanic acid | 33. Furosemide | 61. Penicillin G |
| 6. Ampicillin | 34. Gentamycin | 62. Penicillin V |
| 7. Aprotinin | 35. Hexetidine | 63. Phenobarbital |
| 8. Articaine | 36. Hydrocortisone | 64. Pilocarpine |
| 9. Amphotericin B | 37. Hydrogen peroxide | 65. Potassium permanganate |
| 10. Atenolol | 38. Ibuprofen | 66. Prazosin |
| 11. Atropine sulfate | 39. Interferon | 67. Procaine |
| 12. Azithromycin | 40. Iodine alcohol sol. 5% | 68. Protamine sulfate |
| 13. Bupivacaine | 41. Isosorbide dinitrate | 69. Promethazine |
| 14. Captopril | 42. Itraconazole | 70. Propranolol |
| 15. Cefuroxime | 43. Ketorolac | 71. Remantadine |
| 16. Chlorhexidine | 44. Lidocaine | 72. Risperidone |
| 17. Chlorpyramine | 45. Lincomycin | 73. Salbutamol |
| 18. Chlorpromazine | 46. Losartan | 74. Scopolamine |
| 19. Clonidine | 47. Loratadine | 75. Suxamethonium |
| 20. Dexamethasone | 48. Menadione | 76. Tranexamic acid |
| 21. Dexketoprofen | 49. Mepivacaine | 77. Trimeperidine |
| 22. Diazepam | 50. Metamizole | 78. Valeriana |
| 23. Diclofenac | 51. Metoprolol | 79. Xylometazoline |
| 24. Diphenhydramine | 52. Miconazole | 80. Zopiclone |
| 25. Dopamine | 53. Morphine | |
| 26. Doxycycline | 54. Neostigmine | |
| 27. Droperidol | 55. Nifedipine | |
| 28. Epinephrine | 56. Nimesulide | |

II. Name 2-3 drugs and their pharmacologic groups used for (in):

- | | |
|---|--|
| 1. Acute dental pain | 10. Anxious states |
| 2. Acute hypotension | 11. Arthritis of the temporomandibular joint |
| 3. Acute myocardial infarction | 12. Asthma |
| 4. Acute pulpitis | 13. Attack of angina pectoris |
| 5. Acute rhinitis | 14. Attacks of bronchial asthma |
| 6. Acute toothache | 15. Bleeding |
| 7. Allergic stomatitis | 16. Bleeding gums |
| 8. Anaphylactic shock | 17. Candidiasis |
| 9. Anesthesia of the maxillofacial trauma | 18. Candidiasis of the oral cavity |

- | | |
|--|--|
| 19. Capillary and parenchymal hemorrhages | 44. Periodontal disease |
| 20. Chronic hypotension | 45. Pneumonia |
| 21. Acute hypotension | 46. Pre- and postoperative pain |
| 22. Conducting anesthesia | 47. Premedication |
| 23. Dental caries | 48. Prevention of influenza |
| 24. Disinfection of hands | 49. Prevention of vomiting during dental surgery |
| 25. Disinfection of the surgical field | 50. Prolongation of local anesthesia |
| 26. Disinfection of tools | 51. Psychomotor agitation |
| 27. Fever | 52. Purulent-inflammatory lesions of the oral cavity |
| 28. Fungal stomatitis | 53. Rheumatic diseases. |
| 29. Gingivitis | 54. Severe hypertension |
| 30. Glaucoma | 55. Sleep disorder |
| 31. Headache | 56. Spasm of the intestine |
| 32. Herpes | 57. Staphylococcal infections |
| 33. Herpetic stomatitis | 58. Stimulation of the heart output |
| 34. Hypersalivation | 59. Stomatitis caused by hypovitaminosis |
| 35. Hypertensive crisis | 60. Surface anesthesia |
| 36. Infiltrative anesthesia | 61. Systemic mycosis |
| 37. Insomnia. | 62. Treatment of root canals |
| 38. Intraligamentary and intrapulpic anesthesia. | 63. Treatment of wounds and burn surfaces |
| 39. Migraine | 64. Ulcerative stomatitis |
| 40. Mild hypertension | 65. Viral hepatitis |
| 41. Myositis | 66. Xerostomia |
| 42. Neuralgia of the trigeminal nerve | |
| 43. Neuroses | |

List of drugs and indications of drugs were discussed at the meeting of the department from „17” april 2025, protocol No. 11.

Head of the Department of Pharmacology and Clinical Pharmacy
PhD, professor

C. SCUTARI
